DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 28-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Iams.

Iams discloses in figure 3 a portable sacrum support comprising a main body 30 having a central portion that includes a recess 50 and a removable insert 52 (52 is held in the recess by velcro). Clearly, any reasonable force could be applied by the support (thus, 2 psi to about 4 psi would be included).

Allowable Subject Matter

3. Claims 30-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 1-27 and 32-33 are allowed.
